"Henna for Humanity" will be joining us again this year!!

Henna for Humanity focuses on raising money to help groups of people who don't have proper access to healthcare and education in India. We donate all of our funds from henna events to foundations, like AASAI, working to provide these basic needs to the underprivileged. We are very passionate towards helping those who might need some assistance to get back on their feet, and we hope you'll join us in making thousands of lives better.
